

TOTAL HYDRAULIC SEAL COMPONENTS

Rings

Our O-Rings are made from quality materials and are available in a wide range of materials in both inch & metric sizes. We can custom package your rings with your exact information. Our No minimum helps you save money. Our materials include:

Nitrile (NBR)	Fluorocarbon (FKM)	Silicone
PTFE	Fluorosilicone	Neoprene
SBR	FFKM	X-Rings
EPDM	Polyurethane	Encapsulated Rings

We can supply customs sizes and non standard dimensional rings, as well as rings in just about any specified color. (minimum orders may apply to special sizes and/or ColorSync).

As an alternate THSC can offer a spliced & vulcanized o-ring as a cost effective quick replacement to get you up and running quickly. (static applications only). We offer a beveled of butt-cut joint.
